

ExMP80R

Explosion Proof Mobile Lighting Equipment (Area Lights)

Application

Suitable for explosive environment Class II Zone 1, 2 and Class III Zone21, 22. Designed for a multitude of professional contexts, spanning maintenance, disaster relief, emergency response, incident management and construction. They deliver essential high-intensity illumination to ensure operational efficiency and safety in critical scenarios.

Description

- The lighting equipment consists of a lamp head, a lifting pole and a housing body.
- The lamp head and housing are electrically connected by built-in cord through lifting pole.
 The lifting pole extends up to maximum 800mm, suitable for lighting in the work area for 1-4 personnel.
- The housing is molded using PA engineering plastic, known for its lightweight, corrosion resistance.

The buttons are made of tough, wear-resistant and chemical-resistant high performance nylon, providing a comfortable and long-lasting use.

- It offers four lighting modes-
 - (1) floodlight
 - (2) spotlight
 - (3) floodlight + spotlight (high)
 - (4) floodlight + spotlight (low) with one-touch switching.
- It is lightweight with smart structure. It can be not only hand-held as a portable mobile lighting or placed at different heights for lighting, but also raise the lamp head to achieve wide area lighting.
